Focus Ireland can help you to keep your home or support you settling into a new home of your own.

How we can help:

- **We work with you before eviction or tenancy breakdown** - we do this by supporting you to resolve difficulties at an early stage (e.g. emerging rent arrears, anti-social behaviour, isolation etc)
- **We work with you if there is a crisis** - we work quickly in a situation where there is an immediate or impending risk of losing your tenancy (e.g. threat of eviction, notice to quit or when early intervention has not been possible)
- **Community settlement** - we support you moving from homelessness into long-term accommodation with the local authority, private rented or other social housing groups and we work with you to integrate into the local community.

How to access the services

Referrals can be made by telephone and followed up by an application form. We welcome referrals from all statutory and voluntary groups as well as self-referrals.
